DESCRIPTION

With the **WAY SLIM KITS**, FERMAX offers you the most practical and accessible way to enter in the home.

WAY SLIM KITS are the extra slim video door entry kits with 2 wires for individual residences, allowing an intuitive use and featuring lots of functionalities.

Indoors

The WAY SLIM monitor is a device of **reduced dimensions and extra slim** design, perfect to fit into any space at home. With an elegant white design, it inspires freshness and it offers a lots of functionalities.

With a **4,3" colour capacitive touchscreen**, you will manage all WAY functionalities.

The monitor incorporates two pushbuttons to establish communication with the outdoor panel and to open the door, which incorporate Braille marking.

Hands-free communication. From its capacitive touchscreen you can access to the OSD MENU and manage the monitor in an intuitive way.

Outdoors

A WAY panel of 39mm thickness **made of zamak** with a **wide angle CCD colour camera**.

Incorporates a light sensor, a hood for rain protection and a backlighted cardholder.

Surface installation.

With power supply included in the kit, it is possible to connect up to a 12Vdc 250mA lock release.

TECHNICAL SPECIFICATIONS
