

FD3050Y

Product Description

The button operates with Control Panel FS 5200E and activates the extinguishing.

It is to be installed close to the object of extinguishing.

By means of this button forced extinguishing process can be started only after visual inspection of an authorized person if there is a real fire condition. Fire alarm line is controlled for a short circuit and for an interruption.

TECHNICAL DATA

Switcher one normally open contact (NO)

Electrical installation by means of terminal for installation wires with cross section (0,8-1,5) mm²

Degree of protection IP 40

Operating temperature range from minus 10°C to plus 60°C

Relative humidity resistance (93±3)% at 40°C

Dimensions 90 x 90 x 44 mm

Material ABS, yellow
