System

NGC-7523R, 2MP 32X Starlight 150m IR Network PTZ camera is suitable for wide range of intrusion and perimeter protection applications. The image sub-system is designed and fine-tuned for more reliable AI analysis and recognition results. Upon detecting illegal intrusion, the camera will trace it until the object leave out of restricted regions. This model could recognize max 15 objects per second, recognize human faces up to 390m distance or record human behaviors up to 1950m in most scenarios.
