

3-channel relay controller

- 3-channel VESTA relay controller
- Opening and closing of 3 independent connected devices
- Remote management inside and outside the home
- Integration of relay activation events in other domotic activities
- Strain relief clamp for electrical integrity.

Reference / Model	VESTA-414 / PRLM-CH3-AC-F1
3-channel relay controller	
Automates gas/water valves, lights, pool covers, gates or sprinkler systems, etc.	
Remote operation of three independent devices controlled by one SPDT relay	
Allows relay activation events to be integrated into other home automation activities	
Ideal for retrofitting new or existing homes with limited wiring solutions	
Equipped with a strain relief connector clamp for improved electrical and mechanical integrity	
LED indicators	
Periodic supervisory signals to check system integrity	
RF frequency: 868 MHz	
Power supply: 100V ~ 240V AC	
Load current supported (for each relay channel): 5A, 250V AC / 5A, 30V DC	
14-22 AWG stranded wire	
Operating temperature from -10°C ~ +45°C	

VESTA-414

PRLM-CH3-AC-F1

3-channel relay controller

Reference / Model	VESTA-414 / PRLM-CH3-AC-F1
Operating humidity up to 85% (non-condensing)	
Dimensions: 110 (W) x 91 (H) x 28 mm
